## Voiceflute after Johann Christoph Denner

copy of the original  
fingering chart (variational fingering)

g' (which is b-flat on an alto) is played without the pinkie  
which means: **01234 6**

the same with g" (of course with partly opened thumb hole) :-)  
**0half1234 6**

gis' (which is b' on an alto) needs half a hole more:  
**0123 567half**

gis" as well, which means:  
**0half123 56half**

cis" (which is e-flat" on an alto) needs half a hole more:  
**0half12 456half**

Enjoy your Voiceflute!  
Yours sincerely  
Doris Kulossa-Delfino
